Narrative Summary

As of the first of September, the 4th Battalion was exercising operational control of B/1/13, L(-)/4/12 and the 1st 155mm Gun Battery (-)(Rein). Administrative control was exercised over B/1/13, K/4/13, L/4/12 and the 1st 155mm Gun Battery.

On 1 September, the PHU BAI Vital Area received approximately 76 incoming 82mm mortar rounds. All three batteries under the operational control of this Battalion returned counter-mortar fires. The attack originated from grid YD 883111 and subsequent surveillance credited this Battalion with 5 KIA (C) and 7 KIA (P). The Battalion sustained 12 minor WIA and slight damage to two buildings.

Operational control of the 2d Platoon, L/4/12 was returned to this Battalion from 1st FAG on 10 September.

A platoon of the 1st 155mm Gun Battery was displaced to GIA LE (YD 829151) on 9 September to support the withdrawal of forces from operation CUMBERLAND. The platoon remained at GIA LE for the rest of the month to provide support for the 3d Recon Battalion and to support the forces protecting the class 60 bridge and Rock Crusher at YD 756135. In addition, a liaison team was sent to NAM HOA (YD 762129) on 15 September to assist in coordinating supporting fires from the ARVN 105mm Battery (2 guns) located there.

On 14 September, OPCON of the 3d Platoon, L/4/12 was chopped to this Battalion from G/7/12. This brought all six of L/4/12's guns to their primary position at PHU BAI (YD 888128) for the first time since 24 June.

ADCON of M/4/12 was returned to this Battalion from 1/12 on 13 September.

September was marked by intensive preparation for the forthcoming monsoon season and continued emphasis on improvement of defenses. New fighting holes were dug, sandbags were replaced, and the wire along the entire perimeter was replaced, repaired, and reinforced. More effective coordination of defenses with adjacent units was effected along the Battalion's portion of the perimeter.

As the month of September closed, the 4th Battalion continued to function as the senior artillery headquarters in the PHU BAI TAOR. B/1/13, L/4/12 and the 1st 155mm Gun Battery remained under the operational control of the battalion.
